## VERY MUCH ACCURATE BOOK 47 SPOILERS!

tornadofangs60

While you guys are all fawning over the newest installments, I've done some research about Tui's first book

It turns out she rewrote it because it wasn't getting as many reads as before

So basically, there are these dragonets that are chosen for a prophecy. The prophecy was about an army NightWings with a British accent taking over all the tribes. The leader of the NightWings was named King George the third. The five dragonet's names were Alexander Hamilton, Hercules Mulligan, John Laurens, Lafayette (Don't know his full name) and Elizabeth Schuyler (hope I spelled that right)  Eventually, they escaped their cave and went to win the war by themselves. Hamilton suggested to fight alongside the GeorgeWashingtonWings, and the rest of them agreed because Hamiton was obviously the leader in their friend group. George Washington, the king of the GeorgeWashingtonWings was glad that the five decided to stay, and even made Hamilton his right claw man. No one knows who his left claw man was... Then they went to war, Laurens died, Hamilton and Eliza had a child, the child died, Hamilton did homework with a bunch of other important dragons, Hamilton found an arch enemy to spice up his story more, King George sang a really edgy and gay song, Lafayette went to Pantala to get guns and ships, Mulligan became a detective and spied on some people, the GeorgeWashintonWings won the war, King George sang another edgy song but this time he threw in some d r a m t i c  a f f e c t, Hamilton made George Washington King of everything instead of only GeorgeWashingtonWings, Hamilton's arch enemy threw a hissy fit because he couldn't be King and Hamilton was so annoyed he died. Then all the dead people came back to life in 2018 only to bug Lin Manuel Miranda until he agreed to make a musical out of their life.

I feel like this went from a WoF review to a Moonkitti I spoil Hamilton video

My favorite had to be 456,678,876,543,009, where Star Wars came and Kylo ren farted then Blue turned into the dominican republic and snoke said scisadle scidoddle you are now a poodle eating noodle to john carpenter but Jim hensing was transformed into a noodle the started rampgeing all poodles then John Carpenter burped up the thing and the thing became glory and ate Han Solo then become him and Batman

nuked god then Pantala became Pangea and Pyrrhia exploded! But 456,678,876,543,010 sucked becose it was number 59,725,876 all over again.

I loved the part where Morrowseer actually had powers but then he didn't because he had an animus-touched banana that was 5,000 years old made by a SporkWing animus named Sporky! And then Sporky showed up and sat on Morrowseer's head! Oh, and remember the part on Qibli and Winter's comedy show where Qibli fell off the stage? Hilarious!

book
999,999,999,

999,999,999,

999,999,999,

Why did all of you leave out book 0.41? Honestly, I can't believe that you guys forgot about the Decimal Special Edition books! Those were the best! It drove me crazy when Tsunami founded the Math Nerd Club, though. Honestly, the best part was when the JazzyWings were discovered. They reinvented BubbleSpeak and turned it into BoomSpeak, where you thump your tail to communicate. However, some veterans from the recent Spork War against Sporky who became king of the SporkWings had missing tails, and they got mad that they couldn't do BoomSpeak. So there was a BubbleSpeak revolution in which a SandWing Bubblenimus (bubble animus, can enchant bubbles which no other animus can do) creates the Bubble Army, an army of ferocious bubbles that completely wiped out the JazzyWings. So BubbleSpeak ruled again, until some BoomSpeakers got so furious that they began another 20-year war in which clones of the prophecy dragonets participated. The same Bubblenimus had recreated the Dragonet Prophecy. At the end of the war, however, the BoomSpeakers found out that the Bubblenimus had created the prophecy dragonets out of bubbles! They were furious, and basically recreated the war... again. So that's the entire plot of the Decimal Special Edition books! I can't believe nobody mentioned them, they were my personal favorites.
